Get a Free Authentic Co-design Framework and [join our Community of interest here.](#)

The basics:

Whether you have been involved in collaborative co-design projects before or are just grappling with how to tackle a difficult project in a different way this collection of co-design resources will help guide you.

You will find that co-design is a process that works even if the situation is complex and seems impossible, even when the stakeholders are angry at you and each other!

The course guides you through:

- Exactly what co-design is, and when you should and shouldn't use it.
- The Five Principles of Authentic Co-design.
- The common challenges you'll face, and how to mitigate them.
- The six steps of an Authentic Co-design process.

These are tools Max, Anthony and Susan have successfully used to create processes and ultimately build great relationships with stakeholders many times over.

When you invest in the course, you receive:

- The 90-page Authentic Co-design Manual.
- Over 3 hours of video content.
- Checklists for each step of the Authentic Co-design process.
- The combined expertise of Max, Anthony and Susan.
- Two essential planning tools:
 - Readiness to collaborate planning tool and,
 - Community planning tool.
- Access to a monthly session online about using and integrating co-design (with students of the course).
- 12 months of access to all the course material.

Developed and presented by:

- Max Hardy – [Max Hardy Consulting](#)
- Anthony Boxshall – [Science into Action](#)
- Susan Carter – [The Community Studio](#)
